

GELLNER

GIPSY QUEEN

Design statement for color & courage

Bold, unconventional, daring: the Milinium glass GIPSY QUEEN ring with shimmering cultured pearl is the new pioneer in pearl jewelry design.

The new ring from the GELLNER line GIPSY QUEEN is a real eye-catcher: it is based upon a ring shank in 750 white gold and attention-drawing, pink Milinium glass – an innovative material that not only displays high durability, but also a radiant color. Embedded in the lustrous pink shimmers an expressive Ming cultured pearl, featuring bold violet nuances. It is surrounded by glittering, black brilliant-cut diamonds, which complete the distinctive composition.

The unique ring is the latest member of the GIPSY QUEEN line, which has already impressed with its unusual creations featuring brilliant-cut diamonds. The innovative model now marks the start of a series of incomparable rings with elegant cultured pearls.

Radiant colors, exquisite diamonds and lustrously-shimmering cultured pearls: GIPSY QUEEN interprets pearl jewelry in a way that is surprising, confident and original.
