

GELLNER

STARS IN HEAVEN

Design bursting with confidence

Breathtaking contrast enables the new pearl rings from the STARS IN HEAVEN line to grab the limelight.

The successful STARS IN HEAVEN line has impressed with bold design from the very beginning: brilliant-cut diamonds sparkle in blackened, archaic stainless steel - like stars against a cloudless night sky. The new rings supplement the line with a new dimension: premium cultured pearls.

The first variant is characterized by a warm, profound radiance: surrounded by glittering, brown diamonds, a lush black, brown-changing cultured pearl shimmers on the steel ring.

Descriptions

Ring STARS IN HEAVEN (5-21848-01): Steel, black ionized, 14 diamonds brown si (insg. 0,334 ct), Tahitian cultured pearl

Subject to alterations.

STARS IN HEAVEN

Design bursting with confidence

Irresistible and fascinating:
the second new STARS IN HEAVEN ring emphasizes the iridescent shimmer of a precious Tahitian cultured pearl in an impressive way. 750 rose gold and blackened stainless steel set the perfect stage for the mysterious luster of the cultured pearl.

STARS IN HEAVEN - dedicated to the beauty of strong women.
